ABOUT ...

Santos, created in 1954 by André Fouquet, manufactures commercial electrical equipment dedicated to bars, restaurants, juice bars, coffee shops... and offers four different product lines : Fresh Drinks, Bar, Food Preparation, Coffee. Originally, the company was providing professional coffee grinders and cheese graters to small retailers. 65 years after the launch of the first products, Santos continues to grow and the R&D department develops new and innovative products based on our savoir-faire with respect to production of motors. This is one of the reasons why Santos products are reputed for their robustness and reliability

Alcas

ABOUT ...

Founded by Aldemaro Casaebasse in the early 60s, the company soon developed in the pastry making and ice cream confectionery proposing innovative products in plastic. The originality and innovation began by A.C. (to him is attributed the invention of the zuccotto basin still largely used) has been further developed during the recent years presenting plastic as hygienic, solid and aesthetically ductile material, capable of satisfying the defects of those products in paper, cardboard and aluminium.

The care taken by Alcas, marked by a strong concern for the environment, has brought to the creation of the 02 Bioplastic Line out of corn, made in ecocompatible material, which has received important international rewards as the best product in its category for the respect for nature.

ABOUT ...

Martellato Srl was the brainchild of its founder many years before its enlistment at the Chamber of Commerce and the Company Register. Its name and what it has become today are due to one person, Nero Martellato, father of Alessandro, the current managing director of the company. Nereo was deeply attached to the world of pastry and baking. He appreciated the effort of waking up early in the morning and the passion he felt when he spoke with a pastry chef or a baker.
